ABOUT ME

I am looking for an opportunity to make the transition to a full-time React position. I have five years of commercial experience developing websites using JavaScript, jQuery, HTML, SCSS and Git and one year of React.Js, React Hooks, Redux, TDD, Jest, Enzyme, API calls, Axios and Firebase.

EXPERIENCE

eola, London — *React Developer*

NOVEMBER 2020 - PRESENT | eola.co

Implement user interface components for JavaScript-based web and mobile applications using the React ecosystem. Involved in all stages of interface component design, from conception through to final testing . - TDD, React, EmotionJs

ASP Events, Croydon — *Front End Developer*

JULY 2018 - OCTOBER 2020 | asp.events

Developing projects and delivering solutions to meet and exceed clients briefs. I am responsible for bespoke projects and platform development. - JavaScript, jQuery, HTML, SCSS, CFM, CMS and Git.

Venntro Media, Windsor — *Designer & Front End Developer*

NOVEMBER 2016 - JULY 2018 | venntro.com

Responsible for the design, layout and coding of dating websites. I made sure websites perform well to meet user requirements, as well as reflecting diversity and accessibility. I was also involved in the UX and UI process for dating apps. - Adobe family, JavaScript, jQuery, HTML, SCSS and Git.

Yell, Reading — *Designer & Front End Developer*

MAY 2015 - NOVEMBER 2016 | yell.com

Designing and building high-quality websites across all Yell sites product categories. Working as part of a design team and liaising with Web Consultants and other departments as well as directly with customers to understand their requirements and delivering the best possible solution. - Adobe family, JavaScript, jQuery, HTML, CSS.

SKILLS

Developer

Focuses on writing clean, elegant and efficient code which allows me to confidently make high-level structure choices.

Designer

Experience with UI and UX design that refines my way to approach development.

TOOLS I USE

JavaScript, Js ES6, React, Redux, Jest, Enzyme, Firebase, Git, HTML, SCSS and BEM

CERTIFICATIONS

With Work Experience: ReactJs, JavaScript, advanced CSS and Sass.

Without Work Experience: Node.js, Express, MongoDB

LANGUAGES

English: Fluent
Portuguese: Native
Spanish: Basic

Serilon & Catuai Shopping, Brazil— *Designer*

2008 - 2015 | serilon.com.br & catuai.com.br

During the 7 years as a designer in Brazil, I worked for Serilon and Catuai Shopping. I was responsible for Graphic, Web and Video Design. This experience has refined my approach to development, lending me the confidence to make high-level design choices when building web & mobile apps to improve the user experience. - Adobe Creative Suite.

CONTRACT AND SIDE PROJECTS

ROS Technology, Carnforth - *React Developer*

2020 - 9 months | rostechnology.co.uk

It was requested for an application that could interact with their electronic tracking device. The app had to determine the device location on a map and track where it had been. The app would use this information to notify the user if the device leaves a predetermined geographical area. - React Hooks, Redux, Jest, Enzyme, API Calls, Firebase, Git and basics of Arduino, STM32 and AWS IoT Device SDK for Embedded C.

Potluck Keywords, Founder, Designer and *React Developer*

2020 - 9 months | potluckkeywords.uk

I developed this app after I found no existing apps that managed keywords. Some allow users to view the most popular keywords, but none give the option to save and manage them. - React Hooks, Redux, Jest, Enzyme, API Calls, Firebase and Git.

EDUCATION

Pitagoras, Brazil — *Specialization - Cinema and Documentary*

2011 - 2013

Unopar, Brazil — *Graduation - Visual Arts & Multimedia*

2008 - 2011
